

Consulting Services

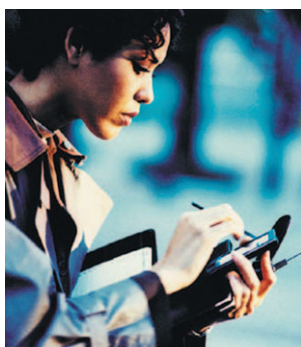

Whether you are contemplating an Enterprise Mobility solution, designing a solution, implementing a solution, or looking for further improvements in business processes, *infotensity* has consulting services that provide measurable results.

Our consulting services focus on identifying opportunities to streamline and optimize business processes. In particular, we empower mobile professionals through the increased use of technology and the elimination of manual processes. Some of our service areas include:

- Business Process Management
- Marketing and Sales Effectiveness
- Document and Report Automation

Solution Focus

infotensity brings together unique talents to create a team focused on providing a business solution. Business and technology skills are combined to provide the customer with a solution that meets the needs of all stakeholders. Our emphasis is on the solution not on a particular technology.

The *infotensity* team includes experience in management consulting and software development in the health care, telecommunications and high-tech industries.

Benefits

- Increase Revenue
- Reduce Paperwork
- Increase Productivity
- Reduce Costs
- Improve Return on Investment
- Increase Efficiency of Sales Resources

Consulting Methodology

Our methodology starts with an assessment phase to understand your current business objectives, processes and IT infrastructure. Our approach is consultative with an emphasis on identifying inefficiencies and opportunities to leverage technology.

- Fact Finding
- Business Process Analysis
- Observations and Conclusions
- Recommendations, ROI Analysis and Solution Definition
- Implementation
